

Klinisch wetenschappelijke abstracts – Nefrologiedagen 2021

Inschrijfnr	Naam	Titel	Abstractnr	Sessienr
126	S. Groen In 't Woud	RISK FACTORS FOR KIDNEY INJURY IN CHILDREN WITH SOLITARY FUNCTIONING KIDNEY	20	17
127	F.K. Hendriks	AMINO ACID REMOVAL DURING HEMODIALYSIS CAN BE COMPENSATED FOR BY PROTEIN INGESTION AND IS NOT COMPROMISED BY INTRADIALYTIC EXERCISE	21	3
136	M. van Oevelen	DIALYSIS WITHDRAWAL IN THE NETHERLANDS BETWEEN 2000-2019: TIME TRENDS, RISK FACTORS, AND CENTRE VARIATION	23	3
158	K.Y. Renkema	MULTICYSTIC DYSPLASTIC KIDNEY: WHOLE GENOME SEQUENCING DATA ANALYSIS IN 30 CASE-PARENT TRIOS	27	22
161	A.Y. Adema	PREVALENCE OF CHRONIC KIDNEY DISEASE AND QUALITY OF CARE ASSESSMENT IN A NORTHERN REGION OF THE NETHERLANDS. POPULATION BASED DATA OF CHRONIC KIDNEY DISEASE FROM THE PROJECT 'GEZONDE NIEREN FRIESLAND'	29	23
161	A.Y. Adema	POPULATION MANAGEMENT FOR PATIENTS WITH CHRONIC KIDNEY DISEASE IN FRIESLAND: A MULTIDISCIPLINARY CARE NETWORK.	39	23
167	R.G. van Merweland	FACTORS INFLUENCING ACCESS TO KIDNEY TRANSPLANTATION (FIAT): RESULTS OF STAKEHOLDERS' PERSPECTIVE	32	23
171	B.J.M.V. Huisman	IMPACT OF RACE/ETHNICITY ON THE CURRENT SCREENING APPROACH FOR CKD : THE HELIUS STUDY	30	23
175	R.C.F. Maes	SUCCESSFUL TREATMENT OF CANDIDA ALBICANS PERITONITIS WITHOUT PERITONEAL DIALYSIS CATHETER REMOVAL - A CASE REPORT	37	23
176	H. Schigt	EXPANDING THE RENAL AND EXTRA-RENAL PHENOTYPIC SPECTRUM OF KENNY-CAFFEY SYNDROME	24	22
178	L. Oomen	THE EFFECT OF DONOR AGE IN A COHORT OF 50 YEARS PAEDIATRIC KIDNEY TRANSPLANTATION	25	23
180	A. Bertels	IS POLYOMAVIRUS ASSOCIATED NEPHROPATHY MORE COMMON IN KIDNEY TRANSPLANT RECIPIENTS EXPOSED TO VALGANCICLOVIR?	31	23
181	E.N.M. de Rooij	QUALITY OF LIFE AND SYMPTOM BURDEN BEFORE AND AFTER STARTING DIALYSIS IN OLDER PATIENTS	18	17
182	M.C. van Buren	PRE-PREGNANCY COUNSELLING AFTER KIDNEY TRANSPLANTATION: CONSIDERATIONS OF NEPHROLOGISTS AND GYNAECOLOGISTS	35	23
185	T.S. Schoot	KIDNEY TRANSPLANTATION OR DIALYSIS IN OLDER ADULTS - AN INTERVIEW STUDY ON THE DECISION-MAKING PROCESS	33	23
186	F.J. van den Oever	ACCEPTANCE AND CLINICAL RELEVANCE OF PHARMACIST INTERVENTIONS DURING NEPHROLOGY WARD ROUNDS: 5-YEAR DATA	38	23

189	F. Geurts	URINARY PROSTAGLANDIN E2 EXCRETION IS ASSOCIATED WITH DISEASE PROGRESSION IN AUTOSOMAL DOMINANT POLYCYSTIC KIDNEY DISEASE	15	59
192	F.H.M. Vrieling-Prince	RENAL GRAFT LOSS DURING ADOLESCENCE; IS THERE A RELATIONSHIP BETWEEN PUBERTAL STAGE AND ACITIVITY OF THE IMMUNE SYSTEM?	28	23
192	F.H.M. Vrieling-Prince	KIDNEY TRANSPLANT REJECTION AND SURVIVAL IN ADOLESCENTS ▯ THE ROTTERDAM EXPERIENCE	34	23
192	F.H.M. Vrieling-Prince	PHARMACOKINETICS OF TACROLIMUS IN RENAL TRANSPLANTATION RECIPIENTS DURING ADOLESCENCE	36	23
193	J. Koch	ENDOTHELIAL DYSFUNCTION IN DERMAL BIOPSIES OF PATIENTS WITH CHRONIC KIDNEY DISEASE ASSOCIATES WITH MARKERS OF INFLAMMATION AND VOLUME OVERLOAD	22	3
194	L.R. Claus	KIDNEYNETWORK: KIDNEY DERIVED GENE EXPRESSION DATA PREDICTS ALG6 AS CANDIDATE GENE IN CYSTIC KIDNEY AND LIVER DISEASE	16	17
194	L.R. Claus	BIALLELIC TMEM72 VARIANTS IN PATIENTS WITH NEPHRONOPHTHISIS-LIKE PHENOTYPE	17	17
194	L.R. Claus	HETEROZYGOUS VARIANTS IN KINASE DOMAIN OF NEK8 CAUSE AN AUTOSOMAL-DOMINANT CILIOPATHY	19	17
195	A. Bokenkamp	PROGRESSIVE KIDNEY FAILURE ▯ AN OVERLOOKED FEATURE OF DOWN SYNDROME	26	23
